OUR NEW OUTFIT.

The signs of the times demand a great national organ at the capital of the nation, and to enable us to give the people a great paper we have just purchased a large and extensive outfit of the most modern and improved body and job type. In addition to our new type outfit, we shall put in a new steam power press of the most modern style.

Come and inspect our new outfit and decide for yourselves whether the Bee has not the best equipped office in this city and which will surpass any Afro-American office in the country. We are also prepared to teach boys and girls the art of printing under the directions of some of the best and most competent colored printers in this country. Now is the time to send in your advertisements for our improved edition.

THE POLICEMAN'S CLUB.

It will be to the credit of Major Moore if he would recommend to the District Commissioners the removal of officers of the police force who use their clubs on inoffensive colored people without cause or provocation. In the police court on Wednesday afternoon there was a case of an officer who charged a colored man with having committed an assault on him when the evidence showed that the officer had brutally assaulted the colored man. The colored man's head showed great and brutal marks of an assault by the officer, notwithstanding the court fined the colored man \$5 for disorderly conduct. In this case the Bee is of the opinion that the court was imposed on.

SUNDAY CONCERTS.

The Sunday afternoon sacred concerts that have been inaugurated by the National Steamboat Company are becoming very popular. The concert on last Sunday at Glymont was well attended. The officers, Messrs. Webber, Lye, Thomas and Key are doing all they can to please the taste and satisfy the desires of their patrons.

The Columbia Carriage Co. is the cheapest and most reliable company in this city. If you want carriages and harness of all kinds and style you should not fail to call on this firm, 456 Pennsylvania avenue, N. W. See advertisement on front page.

The North Carolina republican, Mr. James Poe, who declares that he has the republicans in his vest pocket will find that he will not be a member of the District convention.

The McKinley leagues throughout the country are growing stronger every day.

It is very strange that the editor of the News and his reporter were allowed to give their personal biases in the recent libel against Lawyer Jones.

These gentlemen are white, and only a negro lawyer was libeled. A difference in color only.

The duty of the republican party when it comes into power is to abolish this sham civil service law.

Why some of the colored officers have not been promoted to sergeant is a question the next administration will solve.

The colored people are coming. They have become to realize the importance of making substantial showing in the affairs of life and get rid of shams.

The most successful enterprise in Baltimore, Md., is the Weekly Standard, edited by Mr. John H. Murphy. Editor Murphy has a successful plant in the city of prejudice.

Editor John Mitchell, Jr., never loses any of his fire and dash.

AUGUST FASHIONS.

The August number of Toilettes shows another brilliant color effect on its cover, now to be seen on all news stands. It represents a yachting scene, the central figure being a beautiful woman, attired in a trim nautical toilette by Pingat. It is a striking picture, and artistic arrangement of golden red and corn flowers in their natural color form part of the picture. The inside pages afford a feast in fashion illustration, such as is afforded by no other American or English magazine. Nearly 180 separate and original designs with description as to material and make up of all manner of dresses and the accessories to dress are given in its 32 pages, every square inch of which appears to be fruitful of suggestions to the dressmaker or the lady about to do dressmaking at her home. There are children's dresses for both sexes and from the baby upwards; evening and lawn costumes, boating and cycling toilettes in great variety. A special announcement is made by the publishers that still greater improvements will be made in this magazine, beginning October the first, when a change in price will also be made from 20 to 25 cents for a single copy, and from \$1.50 to \$2.00 per year. We advise our readers to take advantage of this information and subscribe now. Toilettes Pub. Co., No. 126 West 23d St., New York, are the publishers.

A POLISH FOR TAN SHOES.

Now that tan-colored shoes are so much worn a hint as to how they may be preserved indefinitely may not be amiss, writes A. Hoadley in the June "Ladies' Home Journal." A clever little woman of my acquaintance had a handsome pair of very light yellow low buttoned shoes that were ruined as far as appearances went. Her husband was to bring her some dressing, but he would not return until night, and she wanted to wear them after lunch. She put her wits to work: wet a soft muslin rag with water into which a few drops of household ammonia had been poured, rubbed it with a little Castile soap, and applied it first to the back of the shoe. It worked admirably. The entire shoe was thoroughly clean in less than five minutes. She kept one hand inside the shoe to hold it in shape, and was careful not to wet the rag so much as to soak through the leather to the lining, and also to rinse off well before drying. While damp she smoothed them into fine form, she smoothed them away for half an hour to dry.

Some negro editors have an idea that only one paper at a time can live in the same town.

POLICE PLOTTED TO KILL.

THEY RAISED NOT A HAND TO SAVE EX-PREMIER STAMBOULOFF.

Alleged to Have Stopped One of the Servants Who Furnished the Assassins of the Bulgarian Statesman—Fifteen Sword Cuts on His Head—He is Left to Die Alone, No Member of the Cabinet Having Called Upon Him—His Condition Now Hopeless.

London, July 18.—A dispatch to the Pall Mall Gazette, from Sofia, this afternoon, says that the condition of ex-Premier Stambouloff, who was murdered while returning home from the Union Club, by four persons armed with revolvers and knives, is hopeless.

He has fifteen sword cuts on his head and one of his eyes has been destroyed. Although the attempt to murder him was made in a busy street, no one came to his assistance. Everybody seems to be convinced that the police were in the plot to assassinate the ex-premier, as five members of the police force who were near him when the attack was commenced, made no attempt to interfere. Then again, one of the Stambouloff's servants chased one of the assassins, but the man was stopped by the police.

M. Stambouloff's coachman who, it will be remembered, fired his revolver but missed hitting anybody when the ex-premier's assassins attacked the carriage last night, is also believed to have been one of those who plotted against the statesman's life, as he made no attempt to whip up his horses when the attack was made.

The police and detachments of cavalry patrolled Sofia throughout last night, but they seem to have found no trace of the assassin, except some dangerous weapons were found in the streets. It developed during the day that M. Stambouloff has long been convinced that he would fall a victim to the vengeance of the friend of Major Panitsa, whom he caused to be executed after he had been found guilty of treason in 1899, in conspiring against the life of Prince Ferdinand.

Stambouloff's government to give M. Stambouloff his passport to Carlsbad, representatives of the diplomatic corps here have frequently called the attention of the government to the fact that they had become aware that an attempt upon the ex-premier's life was pending. It is strange to add that not a single member of the cabinet has called upon M. Stambouloff since the latter was wounded last night.

BANDIT STATE OFFICERS.

Travel in Mexico Endangered by a Daring Band.

Tucson, Ariz., July 16.—H. A. Crowley, one of the Americans who were held up in the recent robbery of the Nacacari stage in Sonora, arrived here today. Mr. Crowley states that he, with Edward Woodruff, paymaster of the Nacacari Mining Company, who was returning from El Paso with money to pay the miners and a Mexican, named Moreno, the driver of the stage, were ambushed by three men on the road near Cochitla.

Crowley was forced into the brush and robbed, but Woodruff escaped to a good man as good men are. The robbers, however, secured Woodruff's valise, which contained \$4,000 in Mexican money and \$2,000 in American gold. The driver, who was whipped up his team and tried to escape, was shot dead.

The robbery was reported to the authorities and in twelve days, by the direction of the government of Sonora, the placards of Fronteras, were placed under arrest. This was shortly followed by the arrest of Tribolot, his foreman, and two others of his employees. In the four-cornered event the robbers were taken by Major Moore, one of the police, about six miles in the direction of the scene of the robbery and there shot dead by the roadside.

Fifteen hundred dollars of the stolen money was found in the house of Tribolot. The man who robbed Crowley in the brush escaped, but was subsequently captured and executed in the presence of the whole town of Opequera, who turned out to see him shot. The authorities are said to have the names of about forty men who were more or less implicated in the robbery, and who are scattered all over the country to avoid arrest.

The danger in travel is largely increased.

TEXAS WILL NOT HAVE A FIGHT.

Appears That the Corbett-Fitzsimmons Contest Cannot Take Place There.

Austin Tex., July 18.—The general impression in State official circles today indicates that under no circumstances will the fight between James J. Corbett and John P. Fitzsimmons take place in Texas. The Corbett-Fitzsimmons fight is deferred from, and it is considered certain that the pugilists will not be permitted to fight in Texas.

The authorities in their stands are only backed by the moral sentiment of the State.

Railroad Attached for \$750,000.

Concord, July 16.—Through Philip White, the station agent of the Boston and Maine railroad, at Exeter, a writ of attachment has been placed on the Manchester and Lawrence railroad property in the hands of the Boston and Maine as trustee, in a suit brought by the State of New Hampshire to recover \$750,000, which it is claimed represents the earnings of the road in excess of 16 per cent.

To Reorganize an Iron Company.

Nashville, July 16.—A decree of foreclosure has been entered in the United States Circuit Court in the case of the Central Trust Company of New York against the Central Iron Company and the Southern Iron Company. This step is preliminary to the sale and reorganization of the properties. There are first mortgage bonds to the amount of \$3,600,000.

Jefferson Paper Mill Burned.

Watertown, July 16.—The Jefferson paper mill, situated at Black River, Black, reported sunk in the James river, with a crowd of colored excursionists, arrived safely at Petersburg this morning. She was delayed by the storm.

Steamer Ariel Arrives Safe.

Richmond, Va., July 16.—The steamer Ariel, reported sunk in the James river, with a crowd of colored excursionists, arrived safely at Petersburg this morning. She was delayed by the storm.

NEPTUNE'S SARATOGA DAY.

REGATTA TO TAKE PLACE ON THE LAKE AT THREE O'CLOCK.

Its Postponement Gives Opportunity for Preliminary Spins on the Lake This Morning—Faints Found With the Turn in the Course, Which Will Probably be Changed for Next Year's Regatta.

Saratoga, July 17.—Saratoga to-day looks like a soap town, for everywhere on the streets, standing in knots in the hotel smoking rooms, lounging on the porches or stumbling over one another in their efforts to get aboard the "double-deckers" going lakeward, are hundreds of stalwart, sun-browned, fannel-clad men, brought here to struggle for victory, or to "root" for their friends who are participants in the twenty-third annual regatta of the National Association of Amateur Oarsmen.

Never before, since the time when the association, which is now proudly flourishing, was formed in 1875, has there been so brilliant a regatta. The entry lists are full of good, strong men, some of them equal in skill to professionals. It seems highly probable from the talk of the oarsmen this morning that an attempt will be made at the meeting to-night to make this the last year in which races with a turn will be held. Several of the most important clubs have refused to enter the regatta because of this feature, and the resolution abolishing the turn when introduced will undoubtedly have a great many supporters. Very little objection has been made to it, so far as the contestants in the singles go, but in the four-oared and double sculls, where the course is laid out to-day three-quarters of a mile long; buoys with flags upon them mark the start and finish, and at distances of an eighth of a mile apart mark out six lanes for the boats, so that there may be no interference of one crew with another. These lanes are 100 feet wide at the starting line and 150 wide at the other end where the turn is made. The only general advantage of having races with a turn in that by allowing spectators to watch both the start and the finish, the use of boats upon the lake is, in a great measure, done away with, and there is no interference with the oarsmen. The only boats upon the lake this morning are those occupied by the referee, the newspaper men and the private yachts of James D. Kearney and Judge Henry Hill.

There is a great deal more betting upon the results of this year's races than ever before. Possibly this is because gambling is prohibited here, and the running races, not being on the sporting fraternity find this a slight break in the monotony of the season. The bulk of the money seems to be placed upon the results of the eight-oared race and the senior double sculls.

The decision of the regatta committee to have the races at 3 o'clock this afternoon instead of this morning gave all the oarsmen a chance to have a practice spin during the forenoon. It also gave many more people an opportunity to get out to the lake, and the result is that the gathering, in spite of the cloudy weather, is one of the largest in years.

The races set down for to-day included the trial heats in the senior singles and the finals in the intermediate four, pair-oared and intermediate eight-oared races. The first heat in the senior singles brought to the starting flags such excellent men as Fred Hawkins, of the Harlem Rowing Club, New York; J. J. Ryan, of the Toronto Rowing Club, and J. A. Ruhm, also of the Toronto Club, who is very fast, and was reinstated by the executive committee last night. The second heat had in it such men as the third heat brought together E. N. Atherton, of the Hartford Rowing Club; W. S. McDowell, of the Delaware, of Chicago, and Charles Bulger, of the Albany Rowing Club, three of the best men in the association.

The pair-oared event had but two entries—the Toronto Rowing Club and the Pennsylvania Barge Club. In the intermediate eight-oared event the entries showed up a very creditable lot of oarsmen. The Metropolitan Rowing Club, of New York, had course No. 1; Detroit Boat Club, of Detroit, No. 2; Winnipeg Boat Club, of Winnipeg, No. 3; Excelsior Boat Club, of Paterson, N. J., No. 4.

In the intermediate eight-oared event the quantity seemed to be the Wachuset Boat Club, of Worcester, Mass., which was to row with the Eureka Boat Club, of Newark, and the Montrose Boat Club, of Philadelphia. The new is also booked in the senior eight, if not beaten.

CALL ON GEN. HARRISON.

Congressman-Elect Poole Visits the Adirondack Camp.

Old Forge, N. Y., July 17.—The signs of a possible political talk at the Adirondack camp were plain to-day. Congressman-Elect T. L. Poole, of Syracuse, Major Poole did not have a chance to talk politics with the ex-President, for he had with him a delegation of the Grand Army men from his city.

Congressman Poole is one of General Harrison's old comrades, and they have known each other for many years. They greeted each other with great cordiality, and the General seemed pleased to have one of his old friends call. Major Poole's conversation partook wholly of the nature of a social chat, and no word referring to politics was let out.

WATER Famine in Wisconsin.

Many Mills and Electric Power Forced to Suspend.

Appleton, Wis., July 17.—In consequence of the order of the Secretary of War forbidding the use of water from Fox river for power purposes, all the mills in Fox Valley, some fifty in number, are shut down, with the exception of less than half a dozen, which have steam power.

At Appleton every mill is shut down, and the situation is further complicated by the fact that if the order is strictly enforced there will be no electric service, no street lights and possibly no light from private consumers who take light from the Edison Company, until they can substitute steam for water power. In the meantime many hundreds of people will be out of employment and many thousands of dollars' profits will be lost by the manufacturers.

Regatta of the Northwestern Rowing Association.

St. Clair, Mich., July 17.—The regatta of the Northwestern Rowing Association will be held at St. Clair, July 25 and 26. The above date was decided on last night when the merchants and hotel men secured the necessary amount of money to insure the meeting being held at this place.

A LIBERAL ORGAN OFFER.

That there has been a revolution in the manufacture of Organs and Pianos is evinced by the current offer of Cornish & Co., the well known manufacturers of Washington, N. J. For the next 60 days they offer to sell an organ or \$42.50, which a short time ago would have been considered a desirable bargain at \$75.00. With this they offer terms of credit that are sure to meet with the approval of every fair-minded person. Cornish & Co. are the largest makers of Pianos and Organs in the world selling direct from the factory to the home. Since the conception of this great business, nearly thirty years ago, they have been fighting the method of selling instruments through agents and dealers; their plan being to give the enormous profits usually retained by the tradesman to the buyer. Their efforts to place first class instruments within the reach of all, manufacturers' prices and the most liberal terms, deserves the highest commendation. Every one who is contemplating the purchase of an Organ or Piano, should get the catalogue issued by this firm. It illustrates and describes all the latest and best designs of Organs and Pianos with prices and special offers that are sure to prove profitable. They generally offer to send to it free to all who write and mention the BEE.

HE WAS HONEST.

Harsh Reception of a Stranger Who Had No Guile in His Heart.

A citizen of High street East was sleeping the sleep of the just at midnight when there came a loud and continuous ring at the door bell. The awakened citizen slid out of bed and threw up a window and called out:

"Who's that down there?"

"No!" replied a voice.

"And what do you want?"

"Have you lost any money?"

"Not that I know of. Why do you ask?"

"I was comin' along here and struck a nickel right in front of your house with my foot, and was flung on my back and almost killed. Sure you didn't lose it?"

"Did you wake me up to tell me you'd found a nickel?" shouted the indignant citizen.

"Of course I did. I'm an honest man, I am. Some fellows would have grabbed it and catered away and kept mum about it, but that haint my way. If I find any money I'm going to try my best to find the loser. So you haint lost a nickel?"

"No, sir, and I'd like to punch your head!"

"For being honest?"

"Yes! If I had a brickbat I'd make you see stars! Get along, or I'll come down and break your neck short off!"

"Then you don't lay any claim to the nickel?" asked the man on the steps.

"No! No!"

"All right. I'm an honest man. Somebody has lost a nickel, and it's not for me to walk off with it. You can slide back into your bed and I'll try the next door."

He tried the next door, and the next, and the next, and he was still trying when two half-dressed citizens rushed out to him with clubs and drove him clattering away into the darkness. As they gave up the chase he halted and called back:

"I was born an honest man, and you can't discourage me in this way. I'll try every house on the other side of the block and see if I can't find the victim of misfortune."—Chicago Dispatch.

A Case of Conscience.

Herr Beerbaum—It was a dry Sunday, but, nicht wahr?

McGlennis—Sure, I didn't find it dry. Beerbaum—Himmel, how was dot? McGlennis—Bought me a Saturday night.

He Wanted the Place Himself.

The independence of women is creating a havoc among the young men who would like to marry, but whose finances are dependent on their own exertions. The question is no longer "Can you support me in the luxury to which I have been accustomed in my father's house?" but "Can you support me as well as I can support myself?"

A very charming girl recently applied to Gen. Diggins, an official in one of the government departments. She proved to be qualified for the position which she sought, and the General assured her that her chances were excellent with reference to a vacancy which would occur in a few weeks. She had not been gone ten minutes when the General's nephew entered the room.

"You should have been here just a little sooner," said the old gentleman, slyly. "I had a caller whom you would have been charmed to meet."

"Miss Studwell, you mean. I knew that she was coming here."

"Oh, she's an acquaintance of yours?"

"Yes, I wanted to see you about the place she is taking for."

"I see; but your influence is quite unnecessary. I've decided to appoint her. So you can set your mind at rest."

"But my mind at rest! Good heavens! You don't mean to say you're gone and done it! I wanted that place myself!"

"Why, you artless, ungallant scamp! You ought to be ashamed of yourself for trying to injure the prospects of a young girl in this way!"

"I'm not trying to injure her prospects. I'm trying to make her happy for life."

"By taking the bread out of her mouth?"

"Not at all. I'll see that she gets bread, and charlotte russe, too, for that matter. If she has to eat a salary, she'll get to taking such interest in her work that she won't think of marrying, while if I get the place I'll be in a position to propose to her and make her happy for life."

And the General said that he would hold the matter under advisement, pending an investigation and a formal and definite report by "nd as to the young woman's sentiments."—Boston Journal.

Tried to Be Calm.

"Does her love her lanky darling," he queried.

"Ea."

"Does her love her lanky darling lots?"

"Ea."

"Will her love her lanky darling always?"

A man with gray hair, who bore a striking resemblance to the young woman whose head rested upon the shoulder of the youth attired in an ice-cream suit, strode into the apartment and called time.

"I would suggest," he said, with an effort to be calm, "that this civil service examination be adjourned until to-morrow evening."

Then the effort to be calm became too much for him, and he burst into a harsh, mirthless laugh.—Detroit Tribune.

"I would send you a kiss, papa," wrote little Lucy, who was away on a visit, "but I have been eating onions."

DOES IT CONFLICT?

JUDGE McLENNAN'S DECISION.

Judge Herrick Does Not Yet See the Point in the Little Falls Case.

Little Falls, July 16.—A. M. Mills and City Attorney Decester received the opinion of Judge McLennan, of the Supreme Court, in the Little Falls police case this morning. The judge holds that the Little Falls city charter does not contemplate that police officers appointed shall be selected by competitive examination and that the Legislature in passing the charter bill in this form made section 2, article 3, of the State Constitution, imperative in respect to this particular case. He therefore orders that the injunction shall be vacated.

This opinion is exactly opposite to what was expected here, and seems to conflict in every respect with the opinion of Judge Herrick, of Albany, in the Aldridge case. The action of the Police and Fire Board being now sustained, the new force will succeed the old one. McEvoy and O'Connor, attorneys for the old force, have not determined what their future action will be.

Judge D. Cady Herrick after carefully reading the above dispatch said: "I do not see how I can express an opinion on this as it does not contain any point. The tenor of the article would imply that the case, however decided, rested on the terms of the Little Falls charter, concerning which I am not informed."

Recorder Albert Hesseberg said: "It is blind, very blind. The first half of the article as I read it, is in consonance with Judge Herrick's opinion, and hence the concluding paragraph, which is a detached comment, must be a mistake, or else the last is right and the first mixed. Nothing is given of the opinion of Judge McLennan upon which a sensible interview could be based. I can certainly say nothing on it."

Neill Olinow, ex-Superintendent of the State Department of Public Instruction, said: "I know Judge McLennan to be a good judge. I have not read Judge Herrick's civil service opinion, and of course can say nothing about this."

Ex-Mayor John Boyd Thatcher said: "I can say nothing about this case at Little Falls. I agree with Judge Herrick in his civil service decision, but not with one of the reasons given in his opinion where he refers to debates and explanations given in the Constitutional Convention. I do not think the Constitution, the State's organic law, should be thus construed, or that any attention should be given to what may have been said about it."

Yale and Cambridge Agree.

English Team Will Sail for This Country on August 31.

London, July 16.—President Horan, of the Cambridge University Athletic Club, has cabled to C. H. Sherrill, Jr., of the Yale Graduate Athletic Committee on Track Athletics, that Cambridge agrees to the date, October 5, specified in Yale's counter challenge, that the Cambridge team agrees to sail by the Cunard steamship company on August 31; and that Cambridge desires the 300-yard dash in preference to the 220-yard dash suggested by Yale, because of the shortness of the straight-track in America.

Mr. Horan received to-day a reply from Yale stating that Yale approves of Cambridge's conditions. The message, which was delivered by a representative of the Associated Press to Mr. Horan, is as follows:

"Yale approves Cambridge's conditions."

Sheriff Tamsen Censured.

Grand Jury Finds the Subordinates Utterly Guilty in the Case.

New York, July 15.—Judge Lacombe, in the United States Circuit Court to-day, charged the grand jury in regard to the escape of the post office thieves from Ludlow street jail.

The grand jury made a presentment this afternoon in the matter of the escape. Sheriff Tamsen is censured for neglect in keeping subordinates who did not know their duty. The principal responsibility for the escape is fixed upon ex-Warden Rabe, whom the jury says was guilty of gross and culpable neglect while the under keepers, Schaefer, Schoen and McCabe are found to be utterly unfit men, who displayed at the critical moment not only cowardice, but stupidity, if nothing else.

Factories Humming in Mexico.

Depreciation in Silver Making Importation Costly in the Cause.

Mexico City, July 15.—Many print-cloth mills are running night and day, and even now are unable to supply orders. Native mills are finding an increase in business as a result of the depreciation in silver, which renders importation of ordinary classes of print cloth excessively costly.

High exchange on the United States and Europe protects native mills and with the existing high tariff, foreign competition is almost impossible. Many cotton mills are projected or are already on the point of being opened.

Elevated Bicycle Road.

Milwaukee, July 15.—Chicago and Milwaukee are to be united by an elevated bicycle road. Work will begin as soon as the right of way into the two cities has been obtained. The plan is to construct a wooden elevated road, sixteen feet wide. It is proposed to make the through toll only ten cents. Its projectors predict that it will be patronized by 30,000 passengers per week.

Broke State Road Records.

St. Louis, July 15.—Ross Miller, of the Century Road Club, broke the 25, 50 and 100 mile State road records yesterday. His time for the distances were, 25 miles, 1 hour 10 minutes; 50 miles, 3 hours, 15 minutes; 100 miles, 7 hours.

Colon, July 15.—The American schooner Ann E. Valentine, Capt. Morris, which sailed from Mobile on May 13 for Port Limon, has arrived at this port in distress. She is leaking badly and has lost sails and rigging.
